Experienced software engineer with expertise in Artificial Intelligence, prompt engineering, Integration Engineering, software testing and bug resolve. Proven track record in system architecture, and database management. Skilled in problem-solving, unit testing, and zero shot, one shot development, emphasizing code quality and documentation. Effective mentor and leader, committed to software excellence.

## EXPERIENCE

---

**Prompt Engineer** | Outlier.io | India | September 2024 – present (freelancer)

- Designed and implemented prompt strategies that significantly increased the accuracy of AI outcomes.
- Collaborated with product teams to integrate AI functionalities into various applications.
- Developing precise prompts for model training.
- Designing prompts based on context, gender, image, or scenario.
- Conducted user testing and feedback sessions to continuously improve AI interactions.
- Training the LLM across diverse domains, including finance, humanities, and engineering.

**Professional Engineer** | Capgemini | India | August 2021 –September 2024 (full-time)

- Successfully led multiple software projects, ensuring timely delivery and adherence to quality standards.
- Contributed to the optimization of systems, resulting in improved performance and reduced downtime.
- Implemented best practice in software development, enhancing team productivity.
- Experience in deployment, Integration, Configuration, Log analysis, Fault troubleshooting, Operation & Maintenance, Technical Support, Transmission Activity, Project Planning and Execution.

## TECHNICAL SKILLS

---

Familiar with Generative AI, NLP, LLM technologies  
Familiar with Data structures  
Familiar with Linux, shell scripting and Azure fundamentals  
Tools: - Jira, GitHub, Docker, Kubernetes  
Languages: - C, C++, Python, SQL

## EDUCATION

---

Shivaji University, Kolhapur, India | Bachelor of engineering | August 2017 – August 2020  
MSBTE, Kolhapur, India | Diploma in computer science | August 2015 – August 2017

## CERTIFICATIONS

---

AI-900 Certification ( Microsoft )  
Generative AI with Google – Bard, PaLM API, and Google Cloud (Udemy)  
AZ – 900 Certification ( Microsoft )

## INTERPERSONAL SKILLS

---

Creative Thinking  
Leadership skills  
Communication skills

## PERSONAL DETAILS

---

DOB: - 2<sup>nd</sup> July 1997  
Gender: - Male  
Nationality: - Indian  
Marital Status: - Married
